

## Early Years Foundation Stage Policy

**Person Responsible: Miss J Doughty**

**Date September 2017**

**Review: Autumn 2018**

### **Mission Statement**

***'I have come that you may have life, and have it to the full.'*** (John 10.10)

Early Years Foundation Stage (EYFS) 'Every child deserves the best possible start in life and the support that enables them to fulfil their potential. Children develop quickly in the early years and a child's experiences between birth and age five have a major impact on their future life chances. A secure, safe and happy childhood is important in its own right. Good parenting and high quality early learning together provide the foundation children need to make the most of their abilities and talents as they grow up'.

### **The EYFS seeks to provide:**

- Quality and consistency in all early years settings, so that every child makes good progress and no child gets left behind,
- A secure foundation through learning and development opportunities which are planned around the needs and interests of each individual child and are assessed and reviewed regularly,
- Partnership working between practitioners and with parents and/or carers,
- Equality of opportunity and anti-discriminatory practice, ensuring that every child is included and supported.

There are seven areas of learning and development that must shape educational programmes in early year's settings. All areas of learning and development are important and inter-connected. Three areas are particularly crucial for igniting children's curiosity and enthusiasm for learning, and for building their capacity to learn, form relationships and thrive. These three prime areas are:

- Communication and Language;
- Physical Development
- Personal, Social and Emotional Development.

In addition to these prime areas there are four specific areas which include essential skills and knowledge for children to participate successfully in society. These four specific areas are:

- Literacy,
- Mathematics,
- Understanding the World,
- Expressive Arts and Design.

At St. Aloysius we aim to provide a broad and balanced curriculum enabling each child to develop spiritually, personally, socially, emotionally, physically, creatively and intellectually to their full potential. Each child is valued

as an individual and teaching and learning is based on the understanding that children develop at different rates. Therefore, the seven areas of learning involve experiences for each child as follows:

**Communication and Language** development involves giving children opportunities to experience a rich language environment; to develop their confidence and skills in expressing themselves; and to speak and listen in a range of situations.

**Physical Development** involves providing opportunities for young children to be active and interactive; and to develop their co-ordination, control, and movement. Children must also be helped to understand the importance of physical activity, and to make healthy choices in relation to food.

**Personal, Social and Emotional Development** involves helping children to develop a positive sense of themselves, and others; to form positive relationships and develop respect for others; to develop social skills and learn how to manage their feelings; to understand appropriate behaviour in groups; and to have confidence in their own abilities.

**Literacy** development involves encouraging children to link sounds and letters and to begin to read and write. Children must be given access to a wide range of reading materials (books, poems, and other written materials) to ignite their interest.

**Mathematics** involves providing children with opportunities to develop and improve their skills in counting, understanding and using numbers, calculating simple addition and subtraction problems; and to describe shapes, spaces, and measures.

**Understanding the world** involves guiding children to make sense of their physical world and their community through opportunities to explore, observe and find out about people, places, technology and the environment.

**Expressive arts and design** involves enabling children to explore and play with a wide range of media and materials, as well as providing opportunities and encouragement for sharing their thoughts, ideas and feelings through a variety of activities in art, music, movement, dance, role-play, and design and technology.

### Our Aims

At St. Aloysius we aim to:

- Make the **transition** from Nursery (pre-school) to Reception (full time education) as smooth as possible.
- Provide a **secure** and **caring learning environment** in which children are **happy** and **eager** to learn.
- Provide a **broad, balanced** and **creative curriculum** that will set in place firm foundations for future learning and development in Key Stages 1 and 2.
- Provide **opportunities** for children to learn through **planned** and **purposeful play** in all areas of their learning and development.
- Develop a **working partnership** between **home** and **school**.
- **Enable** each child to develop his/her full potential.
- **Support** children with Special Educational Needs/Disability (SEN/D).
- Ensure that all our children have the **opportunity** to experience a **challenging** and **enjoyable** education through their learning and development.

### Starting School and Settling In

Starting Nursery will be, for many children, the first time they have been away from their parents or familiar adults for a substantial length of time. It is therefore important that the transition from home to school is made as comfortable as possible.

During the term prior to starting Nursery, the Nursery holds an Open Day for the children and their parents/carers to meet the staff, familiarise themselves with the building and experience some typical nursery activities. Parents

will be given different times at which they can visit the setting with their child. This will also provide an opportunity for the Nursery teachers to have an informal chat with both the child/parents/carers. There will be a presentation given by the Nursery staff which will provide information on all aspects of attending Nursery at St. Aloysius.

Children with SEN will be assessed and, if necessary, special provision will be made or extra adult help provided to offer them equal access to the Nursery Curriculum.

Parents/carers are made aware of the effect irregular attendance has on a child's ability to settle, and also of the effects of coming back to school after a long absence.

When joining Reception, the children make a preliminary visit with their parents the previous term. Parents will also be invited to a presentation which will provide them with all of the information needed about the start of their Reception year. If the children attend our Nursery they have many opportunities to meet their new teachers in the second half of the summer term. When the Reception children start school, they will start for full days from the beginning.

In the first term of school parents/carers will be invited to a Phonics workshop and a Maths workshop. These will be aimed at giving ideas on providing effective support at home in these areas and are also designed to build strong bonds between school and home from the first instance.

### **Staffing and Organisation**

We have two part time Nursery sessions, each with a maximum intake of twenty six children. We maintain an adult/pupil ratio of 1:13 within the Nursery Year; there are two Nursery teaching assistants with the Nursery teacher throughout the day. The children will visit the Secret Garden facility frequently throughout the year, where the same ratios will be applicable. The children have daily opportunities for structured and free flow play both in the classroom and in the custom built EYFS outdoor area. This time is supported by an adult, who acts as a facilitator to the child's learning. The staff liaise together in planning, preparation and assessment.

We have two Reception Classes, each with a maximum intake of thirty children. We maintain an adult/pupil ratio of 1:15 within the Reception Year; there is a Teaching Assistant in the classroom throughout the school day. The children have daily opportunities for structured and free-flow play both in the classroom and in the custom built EYFS outdoor area. The children will visit our Secret Garden facility once a week where the same ratios will be applicable. This time is supported by an adult, who acts as a facilitator to the child's learning. The Reception Teachers liaise with their Teaching Assistants, regularly involving them in planning, preparation and assessment.

### **Role of Teachers, Nursery Nurses and Teaching Assistants (Early Years Practitioners)**

The Early Years team are passionate about inspiring children from the very start of their journey at St Aloysius. We provide a wide range of exciting opportunities and experiences through a curriculum which encompasses the best of both the indoor and outdoor space. Our aim is to ignite their appetite for learning, and provide them with the core characteristics required to become independent, confident, hardworking and creative individuals.

The EYFS staff work closely together as part of a team to:

- Enable the children to gain access to all aspects of the curriculum offered in EYFS.
- Observe the children in detail and keep records of the children's progress.
- Intervene appropriately to enable the children to extend their skills, knowledge and concepts.
- Develop strategies to build and support an effective partnership with all parent's/carer's. Positive interaction with adults is crucial to challenging and supporting the children: adults should be interested, acknowledge the value of what the child is doing and give appropriate praise.

### **Planning**

The Foundation stage staff use an agreed format which includes details of curriculum provision, deployment of staff, learning intentions and targeted children. Annual and Half Termly plans ensure that children experience a broad and balanced curriculum which is appropriate for their age.

### **Assessment, Recording and Reporting**

We aim to provide a developmentally appropriate curriculum so we acknowledge that this can only be delivered with the help of careful assessment, planning based on observation and accurate record keeping. Both Nursery and Reception teachers keep samples of child initiated work, photographs and observations of the children made by the staff. During Reception the children also begin to build a writing portfolio which will be passed up to each teacher as they move up the school. These are used for monitoring and assessment purposes. Throughout the Foundation Stage we track the children's progress from on entry in Nursery to when they leave Reception. An end of year report is sent home to parents reporting on the child's progress throughout the year.

### **Equal Opportunities**

As in all aspects of school life, the children will be treated at all times with the requirements of equal opportunities in mind. No pupil will be disadvantaged by reason of race, class, gender or ability. This does not mean that all pupils will necessarily have an identical provision as, for example, those with Special Needs or English as an Additional Language may receive additional support or have separate programmes of work. However, all pupils will receive an educational provision which is equally suited to their needs. For specific reference to Special Educational Needs please see school policy.

### **Monitoring and Review**

It is the responsibility of the EYFS practitioners to follow the principles stated in this policy. There is a named Governor responsible for the EYFS. This governor has the opportunity to discuss EYFS practice with the practitioners and provide feedback to the whole governing body, raising any issues that require discussion.

The Head teacher, EYFS Leader and Subject Leaders carry out monitoring of the EYFS through observation and discussion as part of the whole school monitoring schedule. Internal half termly moderation meetings are held where Nursery and Reception teachers/TA's meet to look through Learning Journeys/maths/literacy books, discussing progress and assessment in relation to the ELG's. Termly Cross-school moderation meetings are attended by EYFS teachers.

The EYFS policy has been created by the EYFS Leader (Miss J Doughty) in consultation with her EYFS colleagues and the Deputy Head (Miss K Fenwick) and Head teacher (Mr N Conway)
