

School Talk!

Welcome to Issue 1 of School Talk

Welcome to School Talk, an all-new newsletter with lots of things to explore. This will include accounts of trips, book recommendations, puzzles and more!

Yours sincerely,

Leke, Rinesa, Yahya, Luna, Jon and Louise

Y6 trip to St Pauls

By Jon and Louise

In year 6, we have been learning about World War 2 and as part of our topic, we went to St Pauls Cathedral. St Paul's cathedral was seen as a beacon of hope during both world wars and has guided England to victory. It was originally built in the 16th century and after it was bombed during the Second World War it was rebuilt. Interesting fact- it has 528 steps to get to the top of the dome. We were accompanied by a member of the cathedral and were guided through the cathedral by her.

During the trip we were told about different places throughout the cathedral and their different aspects such as their Christian values and monumental values. We had a great day and would highly recommend visiting!

Y4 trip to Natural History Museum

By Luna

In Year 4 we have been learning about Earthquakes and Volcanoes. Did you know that Mount Vesuvius located in Rome, Pompeii erupted over 50 times in the last 2,000 years? On Monday 11th of November, Year 4 went on a trip to the Natural History Museum to see a special lecture about volcanoes and earthquakes. They discovered why volcanoes erupt and the different types of eruptions. The different types of eruptions are effusive eruptions and explosive eruptions. We learnt that the earth has an inner and outer core, mantle, a crust, and the surface is made up of tectonic plates. When the plates slide against each other, they cause an earthquake to happen. A man called Tom delivered the lecture and he had an assistant- Volcanologist BARBIE!!

Y3 Trip to the British Museum

By Rinesa and Yahya

On Tuesday, Year 3 went to a trip to the British Museum to see some artefacts. We had a work sheet and it had lots of questions. The first question was to find the objects that were drawn on the work sheet. In the mummy's room we saw a huge golden tomb and inside it there was a mummy. We also saw a mummy of Cleopatra and we saw the x-ray of it. Cleopatra wasn't old when she died.

Did you know?

1. Scribes were the only people who could read and write hieroglyphics.
2. The Egyptians knew how to read and write hieroglyphics from the Rosseta stone
3. The Egyptians built a colossal pyramid for the pharaoh

Across

1. A famous skateboarder born in 1989
2. A rugby ball's shape
3. Serena Williams plays this sport
4. This French player scored a goal in the 2018 World Cup Finals

Down

1. The country that won the World Cup 2002
2. The top Olympic swimming gold medallist
3. The coach of the Golden State Warriors when they won a match in 2018
4. One of the best hockey players of all time
