

BEWARE BEWARE

Check Your Hair!

As you are no doubt aware checking for and treating headlice infestation is the responsibility of all parents/carers and vital to minimise the spread of headlice in schools. Parents/carers should check children's hair regularly and apply treatment where headlice is found.

Many local Pharmacies provide headlice treatment free-of-charge to parents/carers of young children.

The School Nurse is also able to offer support to parents/carers on a one-to-one basis if requested.
