

A LEVEL BIOLOGY INDEPENDENT STUDY

- You should have already downloaded the Biology specification as a PDF document on your phone and/or computer. Use this to focus your revision study work
- Logon to Kerboodle and access the relevant digital book and resources
- Use google classroom to access, download and review the power points used in lessons
- Use the past paper booklets (Q) which have already been issued and use the google classroom or smarthomework to access the mark scheme (MS) and examiners report (R)
- Use the glossary sheets in Kerboodle or issued in class. Can you identify the word from definition or trickier, give the definition for each word?
- Logon to AQA website and access/download the specimen/past papers, mark schemes etc.
- Youtube search for *Mr Pollock AQA Biology* loads of brilliant info:
 - Cell Fractionation <https://www.youtube.com/watch?v=SmZnuFjOoUM>
 - ATP <https://www.youtube.com/watch?v=Yyilyfjdwlk>
 - Eukaryotic Organelles <https://www.youtube.com/watch?v=pl4J56byODo>
- Access the document *How to Revise 2- Know it all: 10 secrets of successful learning*
 - Read it. There is ONE KEY Message
- Go through the relevant math skills which will be 10% of examination
- Go through the relevant practical skill which will be 15% of examination
