

British Values Statement

At Marine Park Primary we pride ourselves in the promotion of the British values of tolerance, respect for the rule of the law and UK institutions and the belief in personal and social responsibility to build successful citizens in a multi-cultural society.

We promote British Values in a variety of ways in school:

- Use of circle time to develop relationships and manage conflict.
- Assemblies to promote unity in school, to develop citizenship and social responsibility both in school and in the local community.
- Visits to a range of places of Worship to develop tolerance and respect for other faiths, cultures and beliefs.
- Visitors to school such as the Community Police, Childline Services, Neighbourhood Watch, Magistrates, E-safety visitors to promote personal and social responsibility and citizenship in our wider community.
- School Council promotes pupil voice in the school community and defines changes to improve our school. The School Council also has an annual visit to the South Tyneside Council Chambers to further understand the role of the Council and Mayor in society.
- Use of the SACRE syllabus for RE to develop understanding and tolerance of a variety of faiths and beliefs to build successful citizens in a multi-cultural society.
- Cross Curricular themes – e.g. Nelson Mandela, Crime and Punishment, Non-European studies, Local History. (See links to Year group Curriculum maps)
- Use of a Behaviour and Strategy audit annually to review behaviour and social responsibility within school.
- Supporting charities such as Children in Need, Child Line, Macmillan Cancer, Comic Relief, Royal British Legion to understand our place in the wider world and how we can work together to support others.
- Developing social responsibility through encouraging children to develop a sustainable environment through litter picking, recycling etc.
