

## How to Check or Change Proxy Settings

You might need to follow these instructions to get your laptop to work at home if it has specific proxy settings in which work at school

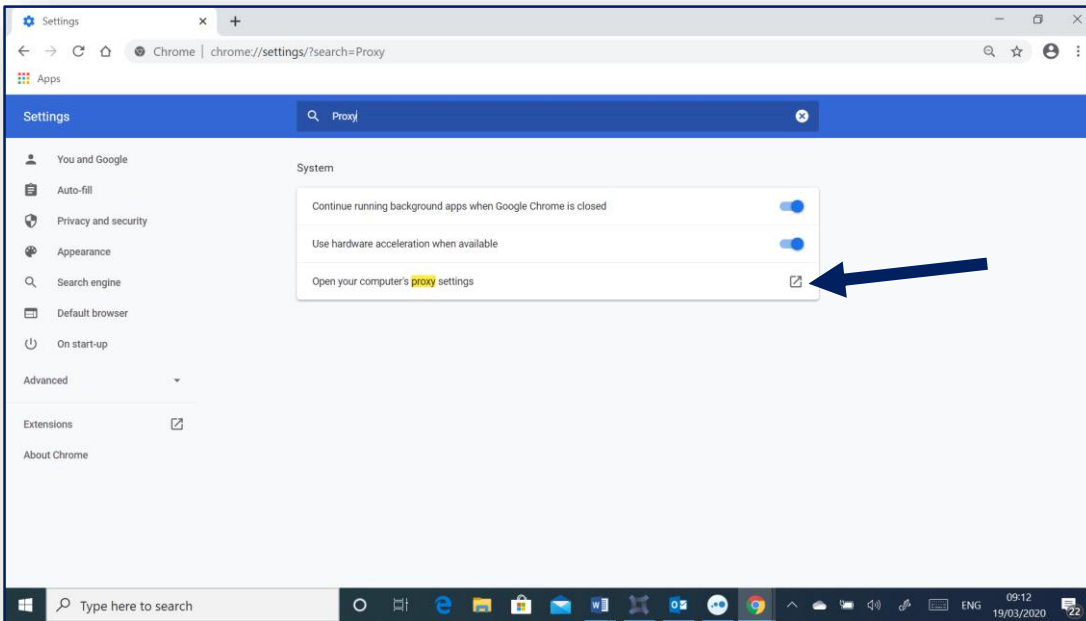

- Open Chrome
- Go to Top Right Hand Corner
- Click on the 3 Dots

- Go down and click on settings

- In the search bar type proxy
- You will see a line that say Open up your computer Proxy settings
- Click on the box with the arrow inside

- The proxy settings box opens
- Under Manual Proxy Setup
- Turn Use proxy to Off
- Then Click Save
- Close the Proxy settings page
- Close the browser and reopen
