(2014 figures are included in the brackets for comparison)

The table above shows the percentage (%) of responses for each of the three categories of answer. The total % for 'Agree' includes both 'agree' and 'strongly agree' totals combined together. Totals may not add up to 100% exactly due to rounding. Data from 2014 is included in the brackets. Where parents included comments we have reproduced these separately. We have tried to be faithful to the authors by including all comments. Thank you to everyone who took time to complete the questionnaire. Your responses are valuable. The outcomes were very positive; however we aim to continue to improve the school even further. Thank you for your continued support.
