	Purchase / install new Activity Trim Trail in Reception outdoor area for EYFS	£6,010	
Total Spend on Objective:		£13,920	

<u>Impact of Premium Use</u>	
Impact on pupils' participation	<p>The children have all had the opportunity to take part in various activities and festivals. Each year group has attended at least two sporting events that have been available to them.</p> <p>These have enabled pupils to put their skills learned in lessons into practice. They have also had the opportunity to learn new skills</p> <p>Children who had the opportunity to take part in the Outdoor and Adventurous activities really enjoyed it and is something that could be implemented within school.</p>
Impact on pupils' attainment	<p>The children are very keen to use the tracks for running and the use of bikes.</p> <p>Pupils are confident in talking about sports, games and activities and show a good understanding of why it is important to live a healthy lifestyle. They can recall their achievements and can discuss the skills they have learned.</p> <p>Pupils are able to apply the skills learned in the sporting activities and festivals to other PE lessons and can compare and apply various skills. The team work skills and positive attitudes developed through sporting activities are widely transferred across many other curriculum areas.</p>
How the premium has allowed pupils to develop active lifestyles	<p>The new trim trail and running track in the EYFS area has enabled children to take on a more active role in their learning. The equipment is always available for them to use when they are outdoors and encourages them to challenge themselves.</p> <p>Participating at sporting festivals in a new venue offering a variety of out of school sporting clubs has give children an insight into what is available to them which they have then relayed to their parents. Some of which have tried out some of the clubs.</p> <p>Co-ordinator attendance at a range of training and meetings regarding boosting active lifestyles has kept school up to date with knowledge on how to promote PE and physical activity.</p>
How the school will sustain the improvements	<p>The use of the trim trail in the outdoor area will be used every day as part of the outdoor provision and will be timetabled in to help develop gross motor skills.</p> <p>The children will continue to complete their Monkton Mile challenges in timetabled slots. The use of the running track at break times and lunch times will continue to be encouraged. The new track will always be available to use for running and cycling as part of the outdoor provision.</p> <p>The PE co-ordinator will still attend the regular curriculum meetings to ensure planning and teaching activities are kept up to date. We will continue to encourage children to bring in evidence of sporting achievements outside of school to promote sports clubs to others.</p>
