

Penfriends

Last year Years 3, 4 and 5 appealed to schools across Europe to join us in furthering our use of language in the form of letter writing. In the current academic year, we have three partners who took us up on this offer, a French, Spanish and Italian school. The Italian and French schools with have previously worked with on other projects but we managed to gain a new partner through one of our Teaching Assistants, who got in touch with her hometown primary school back in Spain. To develop an interest and the children's ability to communicate in a second language. To develop children's ICT skills. Children will learn how to compose emails and add attachments (documents, PowerPoints and images) to communicate with their partners across Europe.
